Professional Experience

Front End Developer, *FantasyPros*
11.2021 – 09.2023
Remote, USA
- Developed "Draft Intel" feature, providing users with insights on how others in their league have drafted, giving them a competitive edge.
- Created "Post-Game" functionality, offering users a comprehensive overview of league performance, including awards, standings, and easy sharing through a URL shortener.
- Resolved bug fixes assigned by the project manager during periods without major projects.

Manager - Front End, *SIDEARM Sports*
04.2021 – 10.2021
Syracuse, NY, USA
- Led the front-end team responsible for levelnextesports.com, utilizing Vue 2 and SCSS.
- Collaborated with project managers to effectively assign tasks to developers, ensuring timely project completion.
- Conducted the hiring, training, and performance evaluations of front-end developers.
- Managed an outsourced company to deliver websites with the same efficiency as an internal team.

Front-End Developer, *SIDEARM Sports*
04.2016 – 04.2021
Syracuse, NY, USA
- Translated Figma designs into pixel-perfect websites, maintaining a high level of design accuracy and attention to detail.
- Contributed to the development of NCHC.tv as part of a two-person team, utilizing Angular 9 and SCSS.
- Integrated over 100+ college athletics sites, including Oregon State University, Baylor University, Arizona University, College Football Playoff, and Colorado State University.
- Collaborated closely with UCLA to achieve OCR compliance for their athletics site within a two-week timeframe.

Skills
